Children's & Family Literacy

A Part of Wonderfully Made Foundation's Pathway to Success Program

Family Literacy

Wonderfully Made Foundation's philosophy is that parents want their children to be successful, but not all parents have the skills to help their child/ren find success. Our commitment is to provide children and parents an opportunity to learn together. Through our work, we aim to help families become educated and successful. Literacy is crucial in building a stronger and productive community. Thus emphasizing learning within a family context, the WMF Family Literacy Program (FLP) enhances the relationships between parents and children and strengthens parents' roles as supporters of their children's education.

Children's Literacy

Wonderfully Made Foundation's Children's Literacy Program operates on one simple and astounding fact; being read to as a child is the foremost indicator of academic success in childhood. If a child can read at grade level by 3rd grade, he/she will continue to read at grade level throughout his./her academic career. A child who succeeds in school will remain there, earning a chance at a better job and a better life in the years ahead. A child who lacks early exposure to reading often suffers with low self-esteem, struggles academically, and is at higher risk for substance abuse, teen pregnancy, and delinquency.

Succeeding begins with reading.
